SCHOLARSHIPS AND AWARDS

Encouraging Student Success

As I come from a lower middle class family, the financial burden on both me and my parents will be great. My parents are planning to help me as much as they can, and I will work to help them. I will be the first to attend college in my family. That is both a dream of mine and my parents.

Delaware County Community College...

founded in 1967, is the center of educational opportunity in Delaware and Chester counties. Students find success through associate degree and certificate programs, a clear-cut course to a bachelor's degree, career advancement opportunities or personal fulfillment. With two campuses, seven centers and eight locations, the College serves more than 28,000 students annually.

Men and women of all ages, from a wide array of cultural backgrounds and at various points in their education enroll at the College. Some students work full time while others are returning to school after raising their families. Some know exactly what their career path will be while others are still searching. However, they all have chosen the College because of its quality educational programs and services that encourage student success.

Delaware County Community College Educational Foundation's primary mission is to support students. The Foundation's commitment to student success is evident from the many scholarships and awards described in these pages. Eligibility criteria are established by the donors themselves. Academic merit and financial need are the most common criteria. Other factors frequently considered are academic major, geographical location or for special circumstances, such as "mature women" or "part-time students." All students are encouraged to review eligibility requirements and to apply as directed.

The Foundation also provides awards for faculty, alumni, students, and staff members based on teaching performance, professional accomplishments, academic achievements and other measures.

ESTABLISH A SCHOLARSHIP OR AN AWARD

Fulfill a Dream, Recognize an Achievement

The gift of a scholarship or award can help fulfill a student's dream or recognize an achievement. Because of this support, students will be well prepared to pursue rewarding careers with opportunities for advancement and to become productive members of society.

Anyone may establish a scholarship or award by contributing to the College's Educational Foundation. Scholarships and awards of all amounts are welcome. They may be named for the donor, such as a corporation or individual, or in memory of or in honor of a loved one.

All contributions are placed into restricted accounts and used exclusively for the scholarship or award created by the donor. Scholarships are credited to the recipients' accounts for tuition or books, and an annual event is held each year to bring students and donors together. Awards are presented at various times, as dictated by the nature of the award.

ENDOW A SCHOLARSHIP OR AN AWARD

Make an Enduring Gift

Donors can establish a scholarship or award that will exist in perpetuity for a minimum contribution of \$10,000. The interest generated on the principal of an endowed account is awarded annually. The original gift is preserved for future generations. Endowed scholarships or awards are a vital part of the College's endowment, which is managed by professional portfolio managers with oversight from the Foundation's Finance Committee.

For more information about establishing a scholarship or award or contributing to an existing scholarship or award, please contact the Executive Director of the Delaware County Community College Educational Foundation, 901 S. Media Line Road, Media, PA 19063. Or, call 610-359-5131.

Dollars for Scholars

2008 ANNUAL DINNER

Astronaut Col. Eileen M. Collins, the first woman Shuttle commander, was the keynote speaker at the 2008 Dollars for Scholars Dinner. As a community college graduate, Col. Collins was an inspiration to students, particularly those majoring in challenging fields of science, technology, engineering and mathematics, known as STEM fields. Her selection as a speaker complements the College's current STEM initiative and the construction of a STEM Complex on the Marple Campus.

College President Jerome S. Parker welcomes Col. Eileen M. Collins and U.S. Representative Joe Sestak along with Kathleen A. Breslin, Executive Director of the College Educational Foundation and Vice President for Institutional Advancement.

Despite the advanced education required to become an astronaut, Col. Collins demonstrated that this goal is achievable for community college graduates and that income and privilege are not barriers to students who choose to reach for the stars.

Keynote speaker, astronaut Col. Eileen M. Collins, graduated from Corning Community College and became the first woman to pilot and command an American spacecraft.

Col. Collins greets the Dollars for Scholars guests.

Justin Tirrell, recipient of the Comcast Cable Communications Scholarship and the student spokesperson at the dinner, enjoyed discussing career opportunities with Col. Collins.

I would love to be able to devote more time to my studies, but at the same time I find I need to work additional shifts to pay for the costs associated with living and pursuing my nursing education.

This is the reason why a scholarship is so important to me.

Since my recent layoff, I have found myself unable to obtain employment. Regardless of my years of experience and progressing career, my lack of a college degree renders me unable to compete in the current job market. I am a highly motivated self-learner with drive and determination. If the Scholarship Committee provides me with the opportunity, I am positive I can reward them with academic excellence.
