Articulation Agreement
Between
Delaware County Community College and
Eastern University Campolo College of Graduate and Professional Studies
Associate in Applied Science in Nursing to Bachelor of Science in Nursing

Delaware County Community College (DCCC) and the Campolo College of Graduate and Professional Studies at Eastern University enter into this articulation agreement to provide DCCC Associate of Applied Science in Nursing graduates with a seamless transfer into the accelerated two-year Bachelor of Science in Nursing (RN-BSN) degree program at Eastern University.

The Bachelor of Science in Nursing degree program at Eastern University requires the completion of 121 credits. Toward that requirement, Eastern University will accept 70 required credits from DCCC's Associate of Science in Nursing degree program. Additional core and support course credits may be fulfilled at DCCC, and accepted by Eastern University, per the attached course-to-course transfer guide. Major courses required for the Bachelor of Science in Nursing must be completed at Eastern University.

In order to qualify for the benefits of this agreement, students must:

- Earn a minimum grade of "C" in major courses completed at EU and in science/support courses completed at DCCC and a minimum grade of "D" in support/core courses completed at DCCC
- Graduate from DCCC with a minimum cumulative grade point average of 2.25
- Pass the NCLEX-RN exam
- Enroll at Eastern University within two years of DCCC graduation
- Satisfy all other Eastern University admissions requirements

DCCC students who transfer with an Associate of Applied Science in Nursing degree will receive transfer credit for all earned credit within their associate's degree program. Eastern University agrees to award a $2,500 scholarship ($833 per term) for full-time attendance over the course of the accelerated two-year Bachelor of Science in Nursing degree program. This scholarship may not be combined with other tuition incentive or scholarship programs.

This articulation agreement covers only the programs defined by the attached course-to-course transfer guide. DCCC and Eastern University agree to review this agreement annually by November 15th and to apprise each other of any changes to the respective programs that may necessitate a modification of this agreement. Either institution may terminate this agreement at any time by written notice at least one year in advance of the effective date of termination. Should this agreement be terminated, it is understood that the termination will not apply to the students already accepted to Eastern University under the terms of this agreement.

DCCC students who wish to take advantage of this articulation agreement must satisfy all of the DCCC Associate of Applied Science in Nursing Degree requirements and pass the NCLEX-RN exam and EU admission requirements prior to enrollment in Eastern University's accelerated Bachelor of Science in Nursing degree program.
The signatures below will finalize this articulation agreement between Delaware County Community College and Eastern University and form the basis of a lasting relationship that will benefit each institution and its students.

For Delaware County Community College:

Virginia M. Carter, Ed.D.
Provost

Lara deRuyter, RN/MSN
Acting Dean, Allied Health & Nursing

For Eastern University:

Alvin S. Jepson, M.Div, D.D.
Dean, Campolo College of Graduate and Professional Studies

Mary T. Boylston, RN/EdD(c) CCRN
Interim Chair, Department of Nursing

Frances M. Cubberley
Dean, Enrollment Management
DCCC requires 70 credits to complete the Nursing Program. Eastern University’s graduation requirements indicate that a student must complete 121 credits, including the major and core and support course requirements. Excluding the major, many of these credits can be transferred into Eastern University. Therefore, students may be eligible to take additional credits at DCCC beyond the Associate of Applied Science in Nursing Degree prior to transferring to Eastern.

The following additional courses may be taken at DCCC to fulfill specific Eastern University requirements.
