**Notes:**

1. SJU requires students to complete a Non-Native Language (one to two courses, depending on placement) as part of the General Education Program. Generally, students will complete levels 101 through 102 from the DCCC-SJU approved languages of German, Spanish, French, Italian, or Russian. It is required that students complete both levels at DCCC in the same language. Those students who begin courses at the 102 level or higher for certain language options should take the following appropriate two DCCC courses: if beginning with the 102 level, take 102 and 111 levels; if beginning with the 111 level, take 111 and 112 levels. Students who earn a 4 on the literature or language AP test for their target language earn credit for 112, and will need to complete one additional language course at SJU. These students will have an additional 6 Humanities elective credits in place of a language to take at DCCC. Students are encouraged to choose one course from HUM 160 or HUM 162 or HUM 168, or use the General Education Program guidesheet (Appendix A of the Dual Admissions agreement) to choose one course from the Art, Music/Theatre/Film, or Literature requirement.

2. Students who earn a 5 on the literature or language AP test for their target language earn credit for 112 and 201, and have fulfilled the Non-Native language requirement for SJU. These students will have an additional 6 Humanities elective credits in place of the Non-Native language requirement to take at DCCC. Students are encouraged to choose one course from HUM 160 or HUM 162 or HUM 168, AND use the General Education Program guidesheet (Appendix A of the Dual Admissions agreement) to choose one course from the Art, Music/Theatre/Film, or Literature requirement.

3. If not already fulfilled, students should choose one course from the following options: HUM 160, HUM 162 or HUM 168 to fulfill the General Education Program Theology - Religious Difference requirement for SJU. OR HIS 255 or HIS 160 to fulfill a History General Education Program requirement for SJU.

4. Choose from the approved DCCC science course options as per the General Education Program guidesheet (Appendix A of the Dual Admissions agreement). A second 4 credit course from the approved list will transfer as an elective to SJU. Alternatively, students may choose to take one course from the Art, Music/Theatre/Film, or Literature requirement as per Appendix A. Students must request a course substitution from the Dean of Business and Computer Information Systems at DCCC. If a student has already taken a course to fulfill the Art, Music/Theatre/Film, or Literature requirement as per Appendix A, they should choose to take a second science at DCCC. The curriculum at SJU requires 40 courses, including 7 elective courses for transfer students so students will not lose credits in transfer if a second science course is taken at DCCC, and they follow this program-to-program guide.
