your Advantage: **Flexible Courses**

Don’t Miss Out on Summer Courses

**SUMMER I REGISTRATION ENDS MAY 18.**
**SUMMER II REGISTRATION ENDS JUNE 29.**

Delaware County Community College offers a variety of course options for students. Our upcoming Summer I and Summer II sessions offer accelerated courses that help current, new and visiting students earn credits between the semester break. Courses are offered on campus at several of the College’s locations, and hybrid and fully online courses are also available.

**Summer Schedule**

**Summer I:**
May 26 to July 1

**PowerUp! Online Courses:**
June 15 to August 17

**Summer II:**
July 7 to August 13

**More Information:**
www.dccc.edu/summer

**Sampling of Summer I courses:**
- American Literature
- Business Communication
- Criminal Law
- Elementary Statistics
- English Composition I & II
- Field Ecology
- Financial Accounting
- Human Anatomy & Physiology
- Introduction to Biology
- Organic Chemistry
- Public Speaking
- World Civilization

**Sampling of Summer II courses:**
- African-American History
- Applied Microbiology
- Creative Writing
- Developmental English
- Elementary Spanish
- Elementary Statistics
- General Chemistry I & II
- Human Anatomy & Physiology I
- Introduction to Business
- Introductory Algebra
- Managerial Accounting
- Pharmacology for Healthcare
PowerUp! With 10-Week Online Summer Courses

OFFERED JUNE 15 TO AUGUST 17. REGISTRATION ENDS JUNE 12.

New this summer, the College is offering PowerUp!—10-week classes that are entirely online. Jump start your education by earning credits between the spring and fall semesters. You can learn from the comfort of your own home, or in whatever environment you learn best. Visiting, current, High School Dual Enrollment and new students are welcome to enroll in these courses.

Online courses are ideal for students looking to accelerate their degree completion time, learn new skills or seek a promotion or new career all while managing their day-to-day responsibilities. Online courses are delivered through WebStudy, a course management system that provides students with 24/7 access to classes and technical support. These classes adhere to the same rigorous academic standards as campus-based courses.

Sampling of PowerUp! Courses:
- American History
- Elementary French I
- Elementary Spanish I
- English Composition I & II
- Financial Accounting
- General Psychology
- Introduction to Business
- Introduction to Computer Science
- Medical Terminology
- Principles of Early Childhood Education
- Web Page Development

Learn more at www.dccc.edu/powerup
Online courses are also available in summer I and summer II.
your Advantage:
Transfer Opportunities

Dual Admission
The College offers an array of transfer agreements with four-year schools. One of these agreements is Dual Admission, which eases the admission process to the partner college or university and can also guarantee admission to a particular bachelor’s degree. This agreement prepares students who complete a specific associate degree to transfer their credits into a parallel bachelor’s degree program at the partner school. Most Dual Admission agreements offer merit-based scholarships and an application fee waiver, so students participating in these agreements save money as well. Students must complete an Associate in Arts (A.A.), Associate in Fine Arts (A.F.A.), Associate in Science (A.S.), or Associate in Applied Science (A.A.S.) degree pursuant to the articulation specifications.

Transfer Partners With Dual Admission Agreements*
- Albright College
- Alvernia University
- Arcadia University
- Cabrini College
- Chestnut Hill College
- Delaware Valley College
- Eastern University
- Gwynedd Mercy University
- Immaculata University
- La Salle University
- Neumann University
- Peirce College
- Pennsylvania College of Art and Design
- Rosemont College
- Saint Joseph’s University
- Temple University
- Villanova University (part-time studies)
- West Chester University
- Widener University

*New agreements are established frequently. Visit www.dccc.edu/transfer for more information.

Secure Employment
Listing an associate degree on your résumé can help you secure a job or internship while you’re completing your bachelor’s.

Read more tips at www.dccc.edu/transfer-tips.
Matthew Mayberry took advantage of the College’s Dual Admission agreement with Temple University. After completing an associate degree at Delaware County, he is now at Temple working toward his bachelor’s in electrical engineering.

The Transfer Office recommended the Dual Admission option, which I was happy to learn about. I had to plan three semesters ahead of time, but it helped me stay on a careful, selective track. I met with Nora Manz, Associate Director of Transfer and Articulation, many times and she helped keep me on the right path from the beginning. Without her I wouldn’t have made it this far.

MATTHEW MAYBERRY
Engineering Major

Transferred to Temple University to Pursue a Bachelor’s Degree in Electrical Engineering
your Advantage: Advanced Technology Training

Turbo-Charge Your Career

Hundreds of high paying, high-tech jobs in the advanced manufacturing sector are available in the Philadelphia region, right now. At Delaware County Community College, we have the resources you need to train for one. And it can take less than a year. Many career opportunities in manufacturing technology come with benefits, retirement plans and room for advancement.

Today, the annual salary of an entry-level manufacturing engineer in our region is nearly $60,000. And the average salary of a skilled manufacturing worker is more than $77,000 a year. In fact, manufacturing workers have the highest job tenure in the private sector and 90% have medical benefits.

Learn more at www.dccc.edu/rightnow

Get Started With the Advanced Technology, A.A.S. Degree

The Advanced Technology Program is designed to serve individuals who desire hands-on training and education for the acquisition or advancement of a technical career in areas such as manufacturing, electronics, industrial production, process control, computer-aided design and drafting, facilities management and CNC operations. The program is flexible enough that it can serve those at entry level and those with established skills who seek technical growth or advancement through continued education. General education and information technology credits help students to develop skills in communication, computer applications and applied science while strengthening problem solving and critical thinking skills necessary for career advancement.

Students may:

• Apply up to 30 credits from a trade or technical certificate completed at the College toward the Advanced Technology A.A.S. degree

• Advance their technical skills in order to grow in the advanced technology industry

• Learn how to select and implement project-management methods to industry-related situations

Concentrations in:

• CNC operations
• Computer-aided design and drafting
• Electronics
• Facilities management
• Industrial production
• Manufacturing
• Process control
Scholarship From JP Morgan Chase for Advanced Technology/Manufacturing Students

Through the generosity of JP Morgan Chase, the Delaware County Community College Educational Foundation is pleased to offer scholarship support to selected students choosing to pursue a program of study in manufacturing. The scholarship is intended to complement any other financial aid for which a student might be eligible, or meet tuition and fees in full for students who are unable to receive aid but have a documented need for financial assistance. Furthermore, the scholarship can be renewable for students who are able to make satisfactory academic progress in their program of study. To learn more about scholarship opportunities, see page 8.

Delaware County Community College has provided me with an opportunity to pass on knowledge about how industries utilize process technology that was garnered during a 40-plus-year career as a technician, trainer and supervisor. I—and other professors here at the College—can impart industry needs and expectations for future employees while at the same time improving my own capabilities.

Richard Benton
Adjunct Professor, Process Control Technology, Industrial Systems and Energy Technology

Hands-On Experience in the Advanced Technology Center

Built in 2009, the College’s Advanced Technology Center is a state-of-the-art facility that provides students with hands-on learning in a real world environment. The 32,000 square foot facility houses technology-based labs that feature the actual tools, machines and equipment students will use in their future careers. The Center also provides highly specialized and customized education and training programs for major corporate partners, including Acero Precision, Boeing and Pennsylvania Machine Works.

The Center houses the following laboratories:

- Automotive
- CAD/CAM (Computer-Aided Design / Computer-Aided Machining)
- Carpentry
- Commercial Electric
- Composites
- Electronics
- HVAC (heating, ventilation and air conditioning) / Plumbing
- Industrial Systems Technology (complete with a 3-D printer)
- Machine Tool Technology
- Residential Electric
- Robotics / Mechanical Technology
- Welding
your Advantage:
Scholarship Opportunities

Delaware County Community College’s Educational Foundation awards approximately $300,000 in scholarships annually and there are more than 100 distinct scholarship programs for students. Scholarships are awarded for a variety of factors and make attending the College even more affordable.

Each scholarship has its own criteria for eligibility established by the donor(s). While academic merit and financial need are the most common criteria, other factors frequently considered are academic major, geographical location or special circumstances, such as “first-year nursing major” or “part-time student.” All students are encouraged to review eligibility requirements and apply as directed.

For a full listing of all of the scholarships and awards presented by the Foundation, as well as instructions on applying, visit www.dccc.edu/scholarships.

STEM Scholarships Totaling More Than $100K

In addition to other scholarship opportunities, students pursuing a Science, Technology, Engineering or Mathematics (STEM) major have 20 additional scholarship options. STEM Scholarships from local employers and companies currently total more than $100,000! Boeing, JP Morgan Chase (see page 7), Pennsylvania Machine Works, Southco, Sunoco and other leading companies in the area are committed to helping students finance their education so they become leaders in STEM.

Learn more and apply at www.dccc.edu/stem-scholarships.
your Advantage:
High School Dual Enrollment

Kick Start Your College Degree With Dual Enrollment

Delaware County Community College offers qualified high school students the opportunity to earn college credits while still in high school through the Dual Enrollment program. Through a new pilot program, courses are offered at a fraction of the cost of standard tuition rates. Students can earn up to 21 college credits before graduating from high school.

Transfer Credits to the College or a Four-Year School
The credits you earn through the Dual Enrollment program can be transferred directly into one of the College’s associate degree programs. The College offers more than 60 degree programs and has transfer agreements with more than 40 colleges and universities. Transferring after earning your associate degree is easy and many four-year schools offer scholarships to Delaware County Community College students. You may also transfer the credits you earn in the Dual Enrollment program directly to a four-year school, putting you even closer to earning your bachelor’s degree.

Save Hundreds of Dollars on Tuition Costs
As part of the College’s pilot program, students will save significantly on tuition costs. Students from sponsoring school districts will pay just $40 per credit, while students from non-sponsoring districts will pay $80 per credit. This is almost a 70 percent discount on the College’s standard tuition rate.

Enhance Your College Application
Today, entrance into college is more competitive than ever. Earning college credit while you’re still in high school will help make your application stand out. It not only shows that you are a dedicated, committed student, but it also proves that you are ready to succeed at the college level.

Learn more at www.dccc.edu/high-school.
your Advantage: Open Admission

The College offers rolling and open admissions to anyone with a high school diploma or GED and the ability to benefit.

How to Apply

1. Complete the Application for Admission at www.dccc.edu/apply and the Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov. New students may apply for admission online or download an application. High School Dual Enrollment, readmitting and international students must complete and submit a paper application.

2. Check your mail. In about a week, you will receive an acceptance letter, welcome packet and instructions on how to access delaGATE, the College’s official online portal.

3. Log in to delaGATE (delaGATE.dccc.edu) to review your financial aid status, schedule placement tests, access your College email account and more.

4. Attend a college planning session to review your placement test results and register for classes with an advisor’s help.

Important Dates*

March 23: Summer and fall registration begins for current students

April 13: Registration for summer and fall begins for new and readmitting students

May 18: Last day to register for summer I courses

May 26: Summer I classes begin

June 12: Last day to register for PowerUp! (10-week online summer courses)

June 15: PowerUp! courses begin

June 29: Last day to register for summer II courses

July 7: Summer II courses begin

August 26: Last day to register for fall classes

August 31: Fall classes begin

www.dccc.edu/register

*Dates subject to change.

It’s a Fact…

• Students enrolled in college full time have a better chance of completing their degree.

• Utilizing financial aid is the best approach to academic success.

• The main reason students do not complete their degrees: Work gets in the way.

Register Now! Visit www.dccc.edu/register or call 1-855-DCCC-NOW (1-855-322-2669).
The College offers several options for students who need assistance paying for college:

- Federal and State Grants
- Scholarships
- Work Study
- Payment Plans
- Student Loans

Step-by-Step Guide to Applying for Financial Aid

1. File your income tax return as early as possible.
   View 7 Easy Steps to the FAFSA tutorial: [www.finaid.ucsb.edu/FAFSACommunity/index.html](http://www.finaid.ucsb.edu/FAFSACommunity/index.html)

2. Within 2-3 weeks of filing your tax return (4-6 weeks if paper filed), complete the Free Application for Federal Student Aid (FAFSA): [fasa.ed.gov](http://fasa.ed.gov). To simplify the process, use the FAFSA IRS Data Retrieval tool to automatically import official tax information. View a tutorial: [http://youtu.be/9ZNRdk3iXeM](http://youtu.be/9ZNRdk3iXeM)

3. List Delaware County Community College’s code on the FAFSA: 007110.

4. Look for an email from the U.S. Department of Education and follow the directions to view your Student Aid Report. Review the report carefully and make corrections if needed.

5. Look for communication (paper or email) from Pennsylvania Higher Education Assistance Agency (PHEAA). (This information applies to state financial aid only.)

6. Within 3–6 weeks check your financial aid status through delaGATE ([delaGATE.dccc.edu](http://delaGATE.dccc.edu)), which is the College’s web portal used for all communications to you. Check it often for important information about financial aid and to view announcements and emails.

7. Additional documentation or action may be required to finalize your financial aid. Check delaGATE frequently to stay informed. Respond immediately!

For assistance from a financial aid advisor, call 610-359-5330 or email finaid@dccc.edu.

**NOTE:** Students who do not fully complete the entire financial aid process, including submission of any additional documents, by the deadlines will be required to go on our payment plan to hold their classes while aid eligibility is finalized.

### Financial Aid Deadlines

**January 1:**
FAFSA form available online
*(The best time to submit your FAFSA is two weeks after you file your taxes)*

**April 1:**
Priority deadline for FAFSA and all financial aid documents for Summer I and Summer II classes

**April 17:**
Scholarship applications due

**May 1:**
PHEAA deadline for returning students

**July 1:**
Priority deadline for FAFSA, Federal Direct Loan Program and all financial aid documents for fall classes

**August 1:**
PHEAA deadline for first-time FAFSA applicants *(but you should meet the July 1 priority deadline)*

**November 1:**
Priority deadline for FAFSA and all financial aid documents for spring classes

Adewale Ajayi began his journey to becoming a pharmacist at Delaware County Community College while he was working full time as an EMT. After graduating from the College, he transferred into Philadelphia University’s premedical studies program and is now at Massachusetts College of Pharmacy and Health Sciences working toward his Doctor of Pharmacy degree.

Delaware County Community College successfully gave me the foundation on which to build upon as I’ve furthered my own educational journey. My advice to new students is to be disciplined, diligent and dedicated—the sky’s the limit!

Southeast Center Offering First Aid Courses This May

The College’s Southeast Center in Sharon Hill is running First Aid courses this May.

CRN 3660 Heartsaver First Aid with CPR/AED
Saturday, May 9 | 8 a.m. to 5 p.m.
$102 (includes workbook, course materials and certification card)

Designed for anyone interested in learning lifesaving CPR and first aid techniques, this program is advantageous for scout leaders, coaches, teachers, business employees and others. The course consists of video-based and instructor-led scenarios that teach students the critical skills needed to respond to and manage first aid issues and incidents regarding choking or cardiac arrest emergencies prior to the arrival of emergency medical services.

CRN 3661 Heartsaver Pediatric First Aid CPR/AED
Saturday, May 9 | 8 a.m. to 5 p.m.
$102 (includes workbook, course materials and certification card)

This course is designed to meet the regulatory requirements for child care workers in all 50 States. It teaches babysitters, child care providers and others to respond to and manage illnesses and injuries in a child or infant. The course includes the Four Steps of Pediatric First Aid and modules in Child/Infant CPR AED.

To register, call 610-723-6315. Class must be paid for at time of registration. To view additional CPR classes offered at the Marple Campus, visit www.dccc.edu/cpr.
