A Hub for High Demand Technical Career Education

With the ceremonial cutting of a blue and gold ribbon, the Delaware County Community College's Advanced Technology Center (ATC) opened officially. Joining in the celebration were Trustees, Educational Foundation Board members, legislators, business and industry leaders, alumni and friends.

The ATC is the first of two buildings of the College's $60 million STEM Complex. The new Complex is transforming the Marple Campus and the way the College delivers education in science, technology, engineering and mathematics. Sustainable building features in the ATC include energy-efficient systems, recycled materials and daylight harvesting, minimizing the building's environmental impact and limiting its use of nonrenewable resources. The cutting-edge classroom technology challenges students to sharpen their technical skills and to expand their knowledge base to meet the demands of the 21st century job market.

The opening of the Center coincides with a global focus on renewable energy and the promise of rewarding new careers in the green job market. As green technologies emerge in solar, wind and geothermal industries, the College is adapting course offerings in the building trades and manufacturing to accommodate these emerging career opportunities. New offerings will include courses in green technology such as photovoltaic solar, weatherization, Green Roof construction and geothermal heating and cooling systems. "Hot jobs" in these fields will go to the workers who can keep up with advances in technology.

"The Advanced Technology Center establishes a culture of environmental awareness that extends throughout the College," said College President Dr. Jerry Parker.

"Within this stimulating new environment, students are gaining hands-on experience in the practice of technical and cooperative skills required in a competitive workplace. The College's investment in the STEM Complex complements our emphasis on student success both in the classroom and in the workplace. In opening the doors of the ATC, the College also opens the doors to opportunity in a 21st century educational environment." See photos of the Advanced Technology Center Opening on p.3.

Sample the arts at Delaware County Community College!

Communications, Arts and Humanities dean Dr. Clay Railey envisions making this division known for more than just its outstanding education programs. Railey feels the time is right for the College to open the doors to new creative expressions in music, art, dance, and graphic and fine arts.

In Spring 2009, a new College Arts Festival focused on how new media and new and emerging technologies impact the performing and visual arts. The festival attracted participation of professionals from around the country and the world, including Hadieh Shafie (Iran), Eduardo Kac (Chicago), Tiong Ang (Holland), and Ben Rubin (NYC). The next iteration of the biennial will be in April 2011, and its theme will be humor.

This premier event set the stage, so to speak, for a Fall 2009 festival that included art exhibits by student and alumni artists, plus a show by acclaimed New York City artist Predemina Williamson. A concert series featured the expansive musical experience of the 21st century, and a student theatre production of Shakespeare's The Tempest rounded out the semester. The programs (except the student theatre production) were offered free to the local community as well as College staff and students.

"Our spotlight on the arts brings access to such diverse talent right here at Delaware County Community College. The enthusiastic response from our audiences is gratifying for us. It shows support for our mission of accessibility, exposing our students and our communities to a high level of artistic achievement and education," said Railey.

Performing and Visual Arts 2010

**THE GALLERY ART EXHIBITS**

| Jan. 21 | Ceramics: features artists from the Philadelphia and Mid-Atlantic region |
| Mar. 4 | The Human Figure, Then and Now |

**CHAMBER MUSIC CONCERT SERIES**

| Feb. 7 | Koto music by Masayo Ichigone |
| Feb. 26 | The Jux Trip |
| Mar. 28 | EN.D.E., featuring recorder and archilute duets of new music |

**PERFORMING ARTS: STUDENT THEATRE**

April 13, 14 (matinees); April 14, 16, 17, 21, 23, 24

An Ideal Husband by Oscar Wilde

### SPECIAL PERFORMANCE:

**SATURDAY, APRIL 3, 11 a.m.**

Kay Ryan, U.S. Poet Laureate and faculty member at the College of Marin, a community college in California, will read from her poetry.

All events are held at the Marple Campus. Check the website for further details: [www.dccc.edu](http://www.dccc.edu)
School Board Appreciation Dinner

President Obama has launched the American Graduation Initiative, designed to create a significant increase in the number and percentage of students who earn degrees or certificates from community colleges. President Obama’s plan calls for five million additional graduates nationally by 2020.

The College is developing its five-year strategic plan and performing a periodic self-study for Middle States re-accreditation.

The special emphasis of both initiatives is student success.

As part of its strategic process, the College solicited input from sponsoring school districts and other important constituency groups at the annual School Board Appreciation Dinner in November 2009. Round table discussions focused mainly on the question of how the College and K-12 schools can partner to address the challenge of student success and achieve the American Graduation Initiative.

Clockwise from far left: Frank Aguirre, Springfield School Board; Paul Benjamin, Springfield School Board; Linda Corinna, Springfield School Board president; Lisa Ann Canfield, Springfield School Board president; Sue Adams, Springfield School Board president; Kerry Buchman, Interim Executive Director of Student Affairs; Judy Ronig, Superintendent; Colleen Maio, Faculty Information Officer.

Campus News

Quick Hits

Faculty Awarded Tenure

Congratulations to those faculty who were awarded tenure at the November Board of Trustees meeting:

Assistant Professor (Counselor) Eileen Cohen
Assistant Professor Sandra Gray Devore
Assistant Professor Kellie Givan
Assistant Professor Roger Go
Assistant Professor Pamela Santaranci

Award from Widener

Professor of Psychology John Linder received the Max Gibbes Distinguished Alumnus Award of the Project Prepare program at Widener University. Project Prepare is a program designed to motivate and inspire young people to achieve their personal best.

In November, Linder was elected to Chester City Council.

Named Webmaster

Adjunct librarian Paul Proctor has been named webmaster of the Southeastern Pennsylvania Library Association. He also gave a presentation entitled "Emerging Technology: Best Practices and the Deployment Gap" at the 15th annual Technology and Learning Conference in October.

Women Pursuing Power Event

Suzanne Dooner, (right) assistant dean, Lehigh University; Chester County Clerk of Courts, Barbara Kline, program administrator for Applied Engineering Technology, and Jackie Miller, student in Industrial Systems Technology at the Perkins Bridge Campus; attended Women Pursuing Power, a networking and information event on career and education opportunities in the power industry. The event was held at Exelon headquarters in Kennett Square.

Lamonica Attends National Seminar

Jeffrey Lamonica, assistant professor of History, attended the combined national seminar of the Western Front Association and Great War Society at the National World War I Museum in Kansas City, Missouri.

The conference included technological developments during the war. D-Day at the 1930s, and African-Americans in the U.S. Army in France. Lamonica serves as secretary for the WFA and vice chairman of its East Coast Chapter.

President's Letter

With great excitement and ceremony, our Advanced Technology Center made its official educational debut to an audience of stakeholders who were most favorably impressed by the building, its facilities, and its first students. Next on the agenda, the second and largest building in the STEM Complex is ready to show its "stuff" as the Spring 2010 semester opens.

As you read this, classes have already begun in the Baghip STEM Center. The top three floors, containing state-of-the-art labs, classrooms, and faculty offices, welcomed students on January 31. Classes in mathematics, biology, chemistry, earth and space sciences, physics, allied health, architectural technology, and computer-aided drafting are now in session.

By mid-semester, the ground floor will be open for business. This floor is home to some impressive common areas: physical fitness rooms, a coffee bar, student lounges, a Welcome Center, computer labs, and an auditorium-style classroom.

The College's future is grounded in our students' success, and for most students, their success has a foundation in the study of science and mathematics. In all phases of life, and in many careers, principles of science and math show up. Certainly, looking forward, 21st century jobs will rely on people who have skills in science, technology, engineering and mathematics. True to our mission, the College stands ready to offer these disciplines in the most modern instructional facilities in the region for students who come to find themselves here.

Jerome S. Parker
President

Photos

Photographs appear in "JensWork." Richard Johnson, photography lab technician, has had two photographs printed in the November-December 2009 issue of JensWork magazine. This marks the second time in two years that his work was included. The magazine is distributed in over 60 countries around the world.

Premiere of a New Musical

See Col A Brief Therapy Review, based on a book written by Marc Henley, professor of Psychology, and Paula Stack-Henley, based on a book written by Paula Stack-Henley, had its premiere performances at The Mermaid Inn in Chester Hill in October.
Advanced Technology Center

Noting that the Advanced Technology Center had been developed in conjunction with many partners - state, business and industry leaders, federal and state agencies and other community and government leaders, President Jerry Palmer cited their expertise, engagement and financial support. "You have shared our vision, and today, we have an opportunity to thank you publicly for your support and to make you to share the stage with us," said Palmer.

U.S. Representative Joe Sestak, an ardent supporter of STEM education, helped secure Congressional funding for the project. Sestak praised the College's entrepreneurial role in technical education, particularly its response to the needs of major regional employers like Boeing, Siemens and Deltran.

"To be able to open these doors today to a new generation of students, given the board's unsung guidance and support," said James F. Collins, chair of the Board of Trustees, whose board has overseen the construction project while ensuring a skilled workforce, provided over the ATC Grand Opening. "I called this new center a 'dream center' when he joined the board."

"...to open these doors today to a new generation of students, from the board's unsung guidance and leadership," said James F. Collins, chair of the Board of Trustees, whose board has overseen the construction project while ensuring a skilled workforce, provided over the ATC Grand Opening.

Sunny London, Delaware State University, the College's student President, introduced the College's STEM community leaders, particularly in the STEM Center's role as a "dream center."""
Lou Scott Golf Classic To Celebrate Its 10th Anniversary

The 10th annual Lou Scott Golf Classic (LSGC) is slated for June 8 at The Golf Course at Glen Mills. This popular event has generated over $120,000 to date for scholarships, supporting 41 total awards to Delaware County Community College students.

The LSGC anniversary event is expected to attract its largest audience ever. Jay Sigel, Philadelphia golf legend, two-time captain of the U.S. Walker Cup team, and recipient of both the Ben Hogan and Bobby Jones Awards, will host a warm-up clinic in the morning, join foursomes on the course during play, and pose for group photos. For the event’s grand finale, a helicopter “ball drop” contest will close the day.

In appreciation for those who reserve or register early, one ticket will be provided to the AT&T National, a PGA Tour event featuring a field of top 120 golf professionals from around the world. The AT&T National will be held July 1 – 4, 2010 at Aronimink Golf Club. The opportunity to bid on valuable items related to the event, including a slot in the Fred Woods Memorial Pro-Am on June 10, will be available at the Awards Banquet.

For more information, call the Office of Institutional Advancement at 610-359-5131 or visit the website, www.dccc.edu/louscottgolf.

DONOR WALL TO RECOGNIZE CAMPAIGN CONTRIBUTORS

With the grand opening of the new STEM building slated for spring 2010, donors to the Gateway to Opportunity Capital Campaign will be pleased to see their generosity acknowledged on plaques in labs, classrooms and other spaces. Donors who contributed between $250 and $5,000 will find their names prominently displayed on a donor recognition wall on the ground floor of the new building.

The donor wall serves as a permanent tribute to those who supported the campaign. Contributions for nameplates are still available and may be used to recognize individuals, corporations or organizations. Nameplates also may be used to commemorate a loved one or to honor a graduate of the College.

To discuss a gift to the campaign or for the donor wall, please contact the Office of Institutional Advancement at 610-359-5131.

GIVING OPPORTUNITIES RANGE FROM $250 TO $5,000.

Delaware County Community College Educational Foundation

Yes, I would like to be recognized as a:

☐ Founder 5 x 2  $5,000
☐ Visionary 5 x 1.5 $3,000
☐ Benefactor 4 x 2 $1,000
☐ Patron 4 x 1.5 $500
☐ Partner 4 x 1 $250

Please indicate inscription for nameplate, not to exceed 20 characters/spaces per line.

The Dollars for Scholars Dinner brings together College family and friends in a celebration that recognizes student achievement and donor generosity. On this special occasion, students who have received scholarships meet their benefactors and express their gratitude in person for the support they received. Donors gain an appreciation for the challenges the students encounter in pursuing their education. It is also an opportunity for donors to become better acquainted with the College and its academic programs.

During the 2009-10 academic year, over $200,000 was awarded to 186 students from approximately 100 programs of financial support.
John Orndorff '74, project manager for Naval Surface Warfare Center, Carderock Division-Ship Systems Engineering Station (NSWCCD-SSES) in Philadelphia, attended the Advanced Technology Center grand opening event.

He found the new center to be a bright ray from the facilities where he studied when he was a student in the College's Mechanical Engineering program.

John took most of his classes at the Conshohocken campus, one of the College's early homes. While the campus amenities may not have been of the state, his educational foundation was definitely strong and solid.

"I started at the College right after high school," he said, "and almost learned toward a technical career," he said. "To have a school like Delaware County Community College back by a tremendous bonus. I was able to earn my associate degree at a cost my family could afford."

John, an active participant in the Alumni Association, gives full credit to the Mechanical Tech program and instructors for providing the necessary foundation for building his career success. He enjoys his interaction with the Association, considering his involvement as a chance to give back to the College that gave him such a good start.

Meet John Orndorff:
Alumni returns to the College, surveys new tech facility

Denise Panchelian Butler, Clifton Heights, is a high school senior who sees the medium as an expression of the inner self. Since graduating from the College where she is currently em- phasizing in the Visual Arts, she has visited many areas receiving a bachelor of arts degree from Wilkes University, a Thaddeus Schwartz, (LHS) revisions for U.S. Navy ships. His job includes interfacing with remote on-site Navy representatives; negotiating with vendors for proposed changes to existing shipboard systems with high maintenance costs; creating and maintaining databases relating to all aspects from prototype to final installation of approved modifications in a timely manner.

William "Papi" Houp, Springfield, is known for his vibrant, figurative folk art. With a deep- seated connection to the Amish, Papi finds this art form to be "simple and plain, art that makes people feel good." His contemporary paintings like "A Father's Love" and "Wobble Water," entered in the 1999 Alumni Artists Showcase, let you know it is the artist who makes people feel good.

Lawrence Smalley, West Chester, a retired police officer with Lansdowne Police Department, fences within lands of oil and acrylic paintings. He has shown at the Pennsylvania Art League, Pottstown, and the Art Guild of Delaware County, Lansdale, and was a finalist in the 1999 and 2000 Annual Media Art Show, third place in 2000, and second place in 2007.

David Branson, Boothwyn, communication specialist at the College, has been in the photography business for more than 20 years. An active volunteer with the Alumni Associa- tion, Dave studies photography at the College and the Antoines` School of Photography. Currently working in digital to capture landscapes, portraits and weddings, his real love is working with people. His infrared black and white photographs, "Gethseman", a commemoration of the Battle of Gethseman, received Best of Show in the 2009 Alumni Artists Showcase.

Solveig Chernin, Wallingford, artist and wife of professor John Chernin, studied painting at the College with All Swenson and concurrently with John Roberts. She studies sculpture in Isabel's Studio and with Kristen Kriegel, at Wallingford Community Art Center. Solveig's clay sculpture "Girls Heart Won Second Place in the 2009 Alumni Artists Showcase.

Vivian Penna, Chester, studied art at Delaware County Community College and in- served in the United States Marine Corps. Vivian works in acrylic and oil, each painting a sunset in its own uniqueness and style. She "enjoys painting with line, form, and color. It is related to alumni artist "Papi.""

Jane McGraven, Media, vice president and signage director of the Philadelphia Water- color Society, works full-time from her home studio to create beautiful portraits, landscapes, murals and commissions for arts and wedding invitations. Her driving force is "a love of people, flowers, landscapes, architecture and animals. Jane's work is held in private collections throughout the country. Jane received her bachelor of fine arts from Rowan College. Her abstract painting "Road Runner" won third place in the 2009 Alumni Artists Showcase.

Art McGeown, Media, vice president and signage director of the Philadelphia Water- color Society, works full-time from her home studio to create beautiful portraits, landscapes, murals and commissions for arts and wedding invitations. Her driving force is "a love of people, flowers, landscapes, architecture and animals. Jane's work is held in private collections throughout the country. Jane received her bachelor of fine arts from Rowan College. Her abstract painting "Road Runner" won third place in the 2009 Alumni Artists Showcase.

Deborah Perrella, Norristown, a graduate of American International University with a bachelor of arts degree in graphic design and visual communication, has been a graphic designer for Widener University for ten years. Her work has won awards, including 2009 Honorable Mention for catalog design, from the Association for Continuing Higher Education for the Crystal Marketing Award, and 2008 First Place Brochure Award from the Association of Educational Publishers for the Art Gallery catalog called "Andrews Turner: Things Past, Yet Present — A Retrospective." Deborah's passion for design, detail, organization and color radiated in her college Design Show featured in the 2009 Alumni Artists Showcase.

Jean Beirne, Newtown Square, is retired and enjoying time to paint. Her favorite medium is watercolor, but she enjoys working in acrylics and oils as well. "Jean was fortunate to have had excellent teachers at the College, including Bart Huxham, who was always encouraging us to do our best," the 2003 Alumni Artists Showcase, the first of the alumni art shows, was Jean's first exhibition.

Robert Fraser, Hatfield, has a passion for color and respect for the physical presence of paint on a support. "I am always surprised by the way paint behaves, for some reasons, I can later anticipate how it reacts with different surfaces." He has been known to say that "it minimizes the underlying texture and allows the colors to speak for themselves." And it is in oil that all of his three paintings entered in the 2009 Alumni Artists Showcase that can be the eye.

He has been known to say that "it minimizes the underlying texture and allows the colors to speak for themselves." And it is in oil that all of his three paintings entered in the 2009 Alumni Artists Showcase that can be the eye.

R. Kevin Viola, Drexel Hill, is an avid pho- tographer, "I am always looking for further glimpses of life." A volunteer at Children's Hospital of Philadelphia and assistant junior talent scout for high school volleyball, Kevin also volunteers with the Alumni Associations of both Delaware County Community College and West Chester University, where he received his bachelor of science degree in education. Kevin's scenic color photographs are featured in the 2009 Alumni Artists Showcase.

"After I get the associate degree, I want to work as an electrical draftsman at Sun Ship. I told them I wanted to complete my education and they supported my decision. So I enrolled at Widener and earned a bachelor's degree."

John is a 25-year veteran with the NSWCCD-SSES at the Naval Business Center in Philadelphia, former home of the U.S. Navy Base. He manages technical issues related to Technology Development Implementing updated hard- ware modifications and integrated Logistic System (ILS) revisions for U.S. Navy ships. His job includes interfacing with remote on-site Navy representatives; negotiating with vendors for proposed changes to existing shipboard systems with high maintenance costs; creating and maintaining databases relating to all aspects from prototype to final installation of approved modifications in a timely manner.

"With the exception of the College, there was no more than 20 years. An active volunteer with the Alumni Associa- tion, Dave studies photography at the College and the Antoines` School of Photography. Currently working in digital to capture landscapes, portraits and weddings, his real love is working with people. Alumni Artists Showcase Judges

Jaime Treadwell, Tim Sullivan, and Steven Tessler '74, Ph.D., served as judges for the Alumni Artists Showcase 2009 at Delaware County Community College. The exhibit, featuring 82 works by 21 alumni artists, ran from December 10, 2009 to January 6, 2010 in The Gallery at the College’s Maple Campus.

Tessler is an ecologist with the U.S. Geological Survey and an amateur photographer. He earned an associate degree in Natural Science at the College and eventually completed his doctoral studies in stream ecology at Penn State. Merging interest in science with interest in photography, he creates a photo-inventory of the creatures he encounters while hiking in the remaining natural places of Delaware County.

Sullivan is an artist and adjunct faculty member at Wilson College in Chambersburg, Pa. She paints small, colorful panoramic landscapes on wood panels, working in layers as the paintings come into focus. Her works have been exhibited at the Center for Emerging Visual Artists and the Fleisher Art Memorial in Philadelphia.

Treadwell is an instructor in graphic design at Delaware County Community College. He earned a bachelor’s degree in Painting and Sculpture from SUNY-Cortland and an M.F.A. in Painting from the University of Pennsylvania.

The judges selected the award-winning works from among 82 entries submitted by 21 alumni artists.

2009 ALUMNI ARTISTS SHOWCASE AWARD WINNERS

BEST OF SHOW:
David Branson '78, Gettysburg, Film, Infrared

FIRST PLACE:
John C. Kline '93, Tornado Alley, Oil on Canvas

SECOND PLACE:
Solveig Cherim '78, Girl's Head, Clay

THIRD PLACE:
Jane McGovern '86, Road Runner, Mixed Media

HONORABLE MENTION:
Rebecca Michele Lee '02, Spring Fever, Acrylic and Mixed Media on Paper
Walter Schwartz '95, Garden, Film, Infrared
Jason Springer '97, Untitled, Black and White Photo
